

# D19B0

# D19B0

| Model          |  | D19B0   |
|----------------|--|---|
| Dimension      | Net(mm)  | 272*313*965   |
|                | Shipping(mm)   | 285*340*985   |
| Weight         | Net(kg)  | 15kg  |
|                | Shipping(kg)   | 17kg  |
| Container Qty. | 20FT   | 256 units   |
|                | 40FT   | 544 units   |
| Cold           | Cold Tank Material                                   | STS304  |
|                | Cold Tank Capacity(L/h)                              | 2.7L  |
|                | Cold Tank Volume(L)                                  | 3.3L  |
|                | Condenser  | Wire type   |
|                | Temperature Control                                  | Cold Water Thermostat                                       |
|                | Cold Water Temperature                               | 2°C~8°C   |
|                | Compressor   | Internally spring mounted hermetically sealed LG compressor |
|                | Refrigerant  | R134a   |
|                | Cold Power Consumption                               | 105W  |
| Features       | High glossy cabinet. Superior resistance to UV light |   |
|                | PCM(Pre-coated Metallic) Side Panel                  |   |
|                | Hygienic Stainless Steel water tanks                 |   |
|                | New hot tank for high energy efficiency              |   |
