

LIFETIME EDGE CHIP WARRANTY

Crème is designed and manufactured with strength and durability at its heart.

Using the finest materials and manufacturing techniques ensures we can deliver this without compromising on elegance or style.

We understand the demanding nature of the hospitality industry and Crème has been engineered from the outset to perform.

We stand behind the strength of Crème and most plates, bowls, oval dishes, saucers, cups and mugs within the Crème range are covered by a lifetime edge chip warranty.

Please see lockhart.co.uk for full details.

RECOMMENDATIONS FOR A LONG LIFE FOR YOUR CREME PRODUCTS

STACKING

Stack items vertically & try to avoid sliding and rubbing against each other.

CHIPPING

Most plates, bowls, oval dishes, saucers, cups & mugs are covered by the lifetime edge chip warranty.

Handle with care, especially when washing & storing.

Don't scrape the pieces against a bin when cleaning food off the products.

MECHANICAL STRENGTH

MICROWAVE SAFE

HEAT RETENTION

METAL MARKING RESISTANCE

DISHWASHER SAFE

THERMAL SHOCK RESISTANCE

ABRASION RESISTANCE

LEAD AND CADMIUM FREE

IN THE DISHWASHER

Rinse thoroughly after use and before you load them into the dishwasher.

Wash separately from other items like glassware, cutlery and cooking equipment.

Always follow the dishwasher manufacturer's guidelines for the type and amount of detergent to use. Only use the manufacturer's recommended products for cleaning the dishwasher itself.

If metal marks appear on your Crème product then clean them with Porcelain Cleanser.

Check your cutlery regularly to make sure none have rough edges.

Wash any metal preparation surfaces with water and vinegar to remove any metal particles that could be transferred to the Crème Products.
