Hygiene & Barrier Wall Equipment ELECTRONIC DISPENSER

- * Hands Free Sanitiser
- * Wall Mounted
- * Alcohol Gel $\geq 60\%$
- * Electronic Sensor
- * 500 Dose Capacity
- * 600ml Gel Capacity
- * CE Certified
- * Uses 4x AA Batteries
- * Electric Plug Option
- * Gel Viewing Window

Wall Mounted Electronic Sanitiser Dispenser (Alcohol Gel $\geq 60\%$).

CED's electronic sanitising dispenser is hands free to help maintain a hygienic environment, combining safety and practicality at low cost. Public Health England advise that using a sanitising gel with an alcohol content of 60% and above, is effective at killing corona virus. This dispenser can be placed in several locations to encourage PPB (personal protective behaviour).

Easy To Use. By placing your hands underneath the electronic dispenser, the infra red detection cell discharges a measured dose of sanitising gel. The dispenser is simple to refill too. The sanitiser has a large dispensing capacity of approx. 500 doses. The slotted window in the electronic dispenser provides easy monitoring of gel level. The dispenser uses (4 x) AA batteries – not included. There is also an option for a UK plug with 2m electrical lead (Option Code ESPDP).

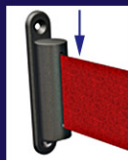

RETRACTABLE BARRIER & Extending 3M Belt

- * Retractable Barrier
- * Wall Mounted
- * 3M Extending Belt
- * Belt In Red Or Black
- * Wall Clip Included
- * Lockable Belt
- * Steel Mirror Finished
- * Forms Access Barrier

Wall Mounted Retractable Barrier (With Extending 3M Belt).

With its' extending 3M belt operation, the CED wall mounted retractable barrier can provide a useful temporary barrier between two wall surfaces, where access restrictions are periodically required. Available with integral red or black belts, the barrier belt end fastens to the supplied wall clip and can be locked to it, in order to prevent tampering. The barrier is finished in a mirror polished steel casing, with a mounting bracket incorporated. Fixings are also included for mounting the barrier and the wall clip.

Easy To Use. The barrier belt is retained in the body under tension, simply pull the belt from its housing and attach it to the wall mounted belt receiver * by sliding it down and on to the bracket. By rotating the base of the belt when attached to the bracket, it will lock to prevent tampering !

*Belt Attached To Receiver.
