Sanitiser Post & Electronic Dispenser (Alcohol Gel $\geq 60\%$)

Easy To Use. By placing your hands underneath the electronic dispenser, the infra red detection cell discharges a measured dose of sanitising gel. The dispenser is simple to refill too. The sanitiser post features a large dispensing capacity of approx. 500 doses. The slotted window in the electronic dispenser provides easy monitoring of gel level. You can easily install or relocate the sanitising post and electronic dispenser in many locations as there is no electrical connection. The dispenser uses (4 x) AA batteries - not included. There is also an option for a UK plug with 2m electrical lead (Option Code ESPDP).
