

# Taurus® Mycook 1.8 Food Processor

The professional induction-heated kitchen robot. The Taurus® Mycook 1.8 Food Processor is the must have tool that all chefs desire. Replace the clutter in your kitchen with Mycook Professional, the all-in-one kitchen appliance capable of performing 15 various kitchen processes; MyCook is the helping hand you always wanted.

Mix, grind, cook, emulsify, knead, powder, shake light fry and melting, are just some of the features from the Taurus® Mycook 1.8 Food Processor.

It has a powerful 800W motor for mixing and a 1000W induction heater reducing the time to reach desired temperature by half and making MyCook the most powerful appliance in its class. The motor is separated from cooking zone and has 10 mixing speeds + a Turbo function. The triple wall 2L bowl made with stainless steel and aluminium is specially designed for induction cooking and has a safety closure lid & measuring cap. The high resistance blade has 4x stainless steel knives and the Knife hub dismantles quickly without any tools for easy cleaning. MyCook is supplied complete with butterfly mixing paddle, spatula & cookbook on DVD.

The Mycook 1.8 includes in its base an induction plate that allows heating on the jar thanks to the electromagnetism principle. The heat is uniformly spreaded on the low part of the jar, and combined with induction, cooking is much faster and efficient.

A secure special jar with a 2 litre capacity. The Taurus® Mycook 1.8 Food Processor uses a triple-wall jar combining stainless steel and aluminium specially designed for induction heating. The cover has an orifice to insert ingredients progressively, measuring cup, special stainless steel 4-knife blade, all parts easy to clean and with security features for a safe operation.

The Taurus® Mycook 1.8 Food Processor includes a very intuitive display for an easy, fluid and secure use. Stainless steel cover for a long-lasting life. Ergonomically designed backwards tilted for easy viewing.
